

VAT is a multi point tax affecting entire value chain of your business. Defining a structured implementation plan in line with VAT introduction milestones and to build out the VAT capability is challenging as it requires careful planning and a structured programme to ensure that the business is VAT ready, including people, processes, controls and technology.

VAT Phases

Following four - phased approach to VAT implementation ensures an efficient, focused and structured methodology to assure your business is ready for and compliant with the new VAT system.

1. VAT Impact Assessment & Planning
2. Getting VAT Ready
3. Implementation & Output Testing
4. Post Implementation Assistance
