

We are a Financial Advisory Company having multi disciplinary skills to address a range of services that our clients require in dealing with composite matters in the areas of VAT Return Filing, VAT Advisory, VAT Implementation, IFRS Implementation, Trainings, Risk Advisory, Accounting Advisory and Financial Advisory

Have you filed your VAT Return?

Keep it in mind that simply the filing of VAT Return does not guarantee that you are entirely secure!

FTA have been actively pursuing the filers by going after them, sometimes paying them a visit and opening audit proceeding against them. Many VAT Filing companies have been subject to penalties only due some very basic errors and mistakes which can be avoided if experts are consulted on time.

We can help you with the following areas:

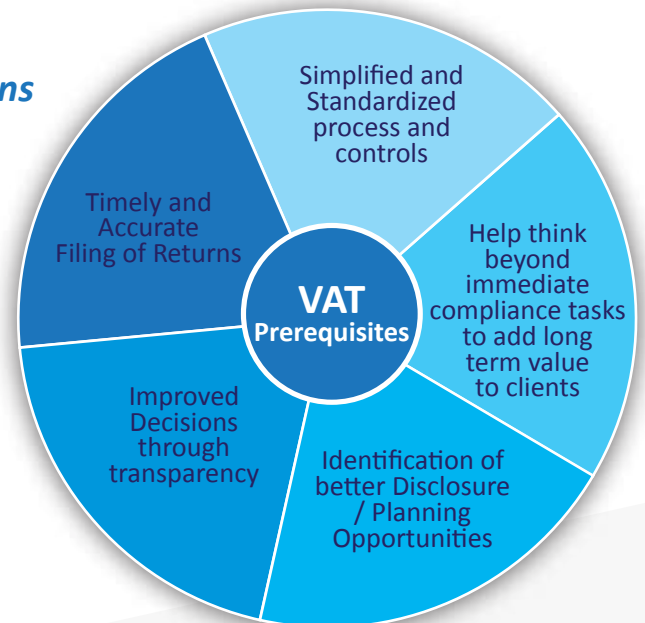

- *Training your staff*
- *Tracing and exception reporting*
- *Proper classification of your business transactions*
- *Streamlining of important processes*
- *Assurance on day to day matters*
- *Advise and support on system improvement*
- *Rectification of errors and mistakes*
- *Recommendations for change beforehand*

Insights's Solution

Our combined team of VAT specialists will identify specific business issues, anticipate any concerns and tailor solutions to fit client specific context and business requirement

Being your Tax Advisor Insights can ensure:

- *Timely and accurate filing of returns*
- *Assistance in resolving any client queries during the process*
- *To provide help with immediate compliance tasks to add long term value to clients*
- *Identification of better planning and disclosure opportunities*
- *Simplification and standardization of processes and controls*
- *Improved decision making by introducing more transparency*
